Team: 04

Sprint: 2
Date: 23/09/25

Attended:
Scrum Master: Yusuf Kaan Yigiter
Product Owner: Sebastion Rodriguez
Development team: Christan, Pee jay, Jensen, Thomas, Anthony

1. Goal

   The main goal of this sprint is to implement the user profile features such as setting their preferred name, bio, etc. While also providing the user the ability to set their preferred categories in the profile page, which will be displayed on the event recommendations feature. Any additional PBI's that the product owner requested from the development team will also be implemented.

2. Duration of the sprint

   3 weeks

3. What is the team's vision for this sprint?

   The development team have prioritised on implementing the user profile features as well as other features requested from the product owner. The following are the PBI's committed to this sprint:

   1. User Profile: My Profile Page
   2. User Profile: Set Preferred Categories
   3. User Profile: Clear/Reset/Update Preferred Categories
   4. Database Migration to MySQL via Docker
   5. Event Recommendation
   6. Event Detail View: Show as markdown-style view
   7. UI Confirmation: RSVP'ed events
   8. Reporting: Flagging Inappropriate Events
   9. Admin: Receiving feedbacks regarding potential inappropriate content
